About Me

I'm a web designer and developer who loves building both the look and logic of websites. I'm interested in frontend and backend development, and enjoy creating clean designs, smooth user experiences, and functional web applications. Always curious and learning, I like turning ideas into real, working products.

Skills

- Software Skills: Basics of Figma, Git/GitHub, VS Code, and MS Office.
- Technical Skills: Expertise in HTML, CSS, JavaScript, PHP, Core Python, JAVA, C and version control.
- Interpersonal Skills: Strong leadership, analytical thinking, problem-solving, teamwork, adaptability, communication, time management, and creativity.

Language

- English
- Gujarati
- Hindi

Education

- **Atmiya University, Rajkot**
Bachelor of Computer Application
2023-2026
CGPA : 9.51
- **Shree K.G. Dholakiya School, Rajkot**
Higher Secondary School
2021-2023

Project

- **Computer Lab Management System (Prototype)**
Designed a frontend-only prototype using Figma for a Computer Lab Management System. The prototype focused on user-friendly interfaces for features like system booking, checking computer availability, and managing time slots. Aimed at improving lab efficiency and user experience through clean, intuitive design.
- **Web Page Cloning**
Cloned multiple web pages for practice using HTML, CSS, and Bootstrap to strengthen frontend development skills. Focused on replicating layouts, responsive design, and styling to match real-world websites. Gained hands-on experience with grid systems, components, and responsive frameworks.
